EXPERIENCE

SKM Digital, Bethel, CT — *WordPress Developer*

Since October 2017

Building custom front-end functionality and design with a client-centric approach.

Websites are designed around a bare-bones WordPress CMS to facilitate the client's needs to keep and maintain their own site.

Coded custom Javascript and PHP functions and widgets to achieve complex client needs.

The Beacon School (GEG), Stamford, CT — *Teacher*

January 2012 - August 2017

Taught 3rd - 12th grade Programming & Web Development, Robotics & 3D Printing, and History.

Helped intellectually gifted and twice exceptional students to be challenged and engaged in the aforementioned subjects.

EDUCATION

Western Connecticut State University, Danbury, CT — *B.A.*

AUGUST 2006 - DECEMBER 2011

Earned a bachelor degree in History with a minor in Political Science.

RECENT PROJECTS

OptiPlant — WordPress *Developer*

SKM Digital - Created an informative and natural user experience to design specifications. Built with a custom front end for a WordPress CMS.

Litify— *WordPress Developer*

SKM Digital - Added and modified additional content to a current WordPress Theme to maintain front and back end continuity.
